About This Game

What is Angels of Fasaria?:

Angels of Fasaria was originally released in 2005. With thousands of downloads and over 48 thousand active users in the browser based game, Angels of Fasaria maintained a loyal following and support base. After the release of "Fasaria World" and later the "Ancients of Fasaria" mmorpg, Angels of Fasaria RPG and the browser based game community was closed and discontinued.

After popular demand and by player's request, we submitted Angels of Fasaria on Greenlight and the community voted it in. It is now re-released on Steam, back and fully revised.

Enjoy the epic adventure that started it all and begin your adventure today!

Angels of Fasaria Game Features:

- You get Angels of Fasaria 2D RPG.
- Steam Cloud to back up saved games and user info.
- Trading cards available for earning badges and backgrounds.

A promotional banner with a dark green, textured background. On the left is a circular gold seal with a serrated edge. Inside the seal, the word "SATISFACTION" is written in a red, curved font at the top. In the center is a red checkmark. At the bottom of the seal, it says "Our Company Policy". To the right of the seal, the text "Company Policy & Customer Satisfaction" is written in a large, bold, white font. Below this, a yellow call to action reads "Please Click Here to Learn More >>>". At the bottom right, a small italicized white line of text says "We aim to meet your needs and expectations.".

I was expecting to see the Online version of this game, but unable too play it and cannot figure out how to. It is a waste of money and time. Plz get rid of it if not working at all.. Unless this game gets a ton of updates, I honestly wouldnt buy it unless you really love oldschool RPGs. 0 players online on the "MMORPG" which is \u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665 hard to start and the currency system in the MMO is stupid. ONLY FOR HARDCORE RPG LOVERS.. Unless this game gets a ton of updates, I honestly wouldnt buy it unless you really love oldschool RPGs. 0 players online on the "MMORPG" which is \u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665 hard to start and the currency system in the MMO is stupid. ONLY FOR HARDCORE RPG LOVERS.. I was expecting to see the Online version of this game, but unable too play it and cannot figure out how to. It is a waste of money and time. Plz get rid of it if not working at all.. I was expecting to see the Online version of this game, but unable too play it and cannot figure out how to. It is a waste of money and time. Plz get rid of it if not working at all.. I mean there is some headache and not a teerible game but I have a beef about the online suggestion it gives you lols... People about the online part that gives you the option tbh I'm just as confused as you lols :D I mean why... why? like seriously why Does "Angels of Fasaria" even give you the option to go online, here at first I was thinking Fasaria World was a cliché or code name for a server so I was like you and clicked it tried to sign up and only after 30 mins later of exhausting all paths to why the Steam Key was not showing it's ugly face in my direction, it then clicked in there was 2 games... like wtf lols seriously? anyways a simple "If" statement in the code to check if that specific game file was on your computer and if it existed then yes suggest for heavens sake, but please don't suggest if the game is non existent on our PC's like what's wrong with ya lols! Seriously what language is the game programmed in and what is the game file's name for the online and I seriously can write up a working code that will save all of us some time! If you think the wild goose chase is entertaining I'm sorry to break it, "It's a big fat NO!!!" but people please listen here the programmer needs to go back to programming school there is no such thing as a Key or Online mode with just a "Standalone" version of Angels of Fasaria, as that's just an offline mode game, I mean I have in the past seen games with retro rpg graphics that were also online like runescape and maplestory but anything from RPG Maker as a whole is gonna mostly and or always be just purely offline! I looked into their 3D online game and was eeks so this the game that's online... wow... :P anyways now i have the job to write up an honest review from what I seen an saw and experienced :D oh yes my pleasure! Cracks figures... so look this game is alright as in Offline basic RPG style game, I can tell you as it stands collect and use items, questing, be sure to save a minimum of once when creating a new game and before you leave the King about your odd dreams you had, cuz as all RPG Maker games for most part if you die you get sent back to title screen and literally have to start a new game, so scrap the auto saving features lols, I would play this casually but not as a full on game, if you want a casual game you play a few mins here or there then yes this is Otay, but I wouldn't say this is exactly material to hook you in and make you wanna play till the end! There is better quality games that exist out there that won't waste your time and 2 will auto save and 3 are alot more fun to play! :D. The game is generic and a repetitive grind from the start. Item crafting is nonsense. The real issue though is the developer is extremely shady. See that MMO tag? Guess what, this game isn't an MMO, yet they advertise it as one. The developers originally claimed that if you purchased the game, you would receive the MMO for free. Now that doesn't seem to be the case anymore, as they clearly state the MMO will not be a free game.

The developer has supposedly started Alpha Testing their MMO, but in order to be considered to test, you have to buy THIS game first. So, instead of creating a new game/MMO here on Steam and listing it as Early Access, they've taken signups to their own personal website and require that you buy this unrelated game first. Seems like total bait to me.
